

ZIAD AHMED ANTER

MEP BIM Coordinator & BIM Developer

3+ Years of Professional Experience • 25+ Projects Delivered

Cairo, Egypt • (+20) 1030715866 (WhatsApp) • ziadanter101@gmail.com • [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Results-driven MEP BIM Coordinator and BIM Developer with 3+ years of experience in Plumbing and Firefighting systems, combining hands-on BIM coordination with custom tool development — building Python-based automation scripts and an in-house Revit automation tool that streamline modeling, documentation, and coordination workflows across multidisciplinary teams. Experienced across 25+ large-scale projects — including developments exceeding 500,000 m² — spanning residential, commercial, hospitality, and infrastructure sectors. Proven ability to develop LOD 400 coordinated BIM models and support LOD 500 As-Built deliverables with full BIM Coordination workflows, resolving 1,000+ clashes per floor and managing complex coordination across 3+ simultaneous multidisciplinary teams and departments. Specialized in Revit MEP Modeling, advanced Parametric Family Creation (including Nested Families, Shared Parameters, and Formula-Based Families), Clash Detection using Navisworks, and BOQ & Quantity Takeoff at scales reaching 1:600. Skilled in reviewing Supplier Drawings and Technical Submittals to ensure model accuracy and fabrication-level compliance. Proficient in developing custom AutoCAD LISP tools and Python scripts that reduce drafting time by over 30% and integrating AI-driven workflows with Revit and Navisworks to accelerate coordination between MEP, Architectural, and Structural departments. Strong focus on BIM Standards, IFC workflows, Fabrication-Level Modeling, Coordination Drawing quality control, and custom BIM tool development.

PROFESSIONAL EXPERIENCE

MEP BIM Coordinator & BIM Developer

Direct | Cairo, Egypt | November 2023 – Present

- Delivered Shop Drawings and fully coordinated BIM models for 25+ projects across residential, commercial, hospitality, and infrastructure sectors — including developments exceeding 500,000 m² such as Four Seasons Infrastructure.
- Developed LOD 400 coordinated BIM models ensuring fabrication-level accuracy and model readiness for construction across all MEP disciplines including Plumbing and Firefighting systems.
- Supported LOD 500 As-Built deliverables by incorporating site-verified conditions into BIM models, maintaining full BIM Coordination compliance and IFC export standards throughout project lifecycle.
- Reviewed and validated Supplier Drawings and Technical Submittals, coordinating with procurement and construction teams to ensure alignment with design intent and site requirements.
- Resolved 1,000+ clashes per floor using Navisworks, coordinating across MEP, Architectural, and Structural disciplines simultaneously.
- Managed concurrent coordination across 3+ multidisciplinary teams on live projects, maintaining quality and meeting project milestones.
- Produced Shop Drawings at complex scales up to 1:600, ensuring accuracy across large-scale infrastructure and hospitality projects.
- Developed advanced Revit Parametric Families including Nested Families, Shared Parameters, and Formula-Based Families to support project-specific MEP components and family libraries.
- Developed custom AutoCAD LISP tools that reduced team drafting time by 30%+ across multiple projects.
- Built Python scripts and BimzTools, a custom in-house Revit automation tool, to automate repetitive modeling and documentation tasks, reducing time spent on recurring project workflows by 35% (see Personal Projects for live tool access).
- Integrated AI-driven workflows with Navisworks to accelerate clash detection and coordination review, cutting Navisworks-related workload by over 30%.
- Connected AI tools with Revit to streamline modeling and documentation tasks, reducing associated Revit workload by over 25%.
- Managed full project workflow on Autodesk Construction Cloud (ACC), including creating and closing issues, publishing and uploading coordinated models, and maintaining up-to-date project documentation across multiple live projects.
- Prepared Bills of Quantities (BOQ) and Quantity Takeoffs for multiple concurrent projects.
- Produced Riser Diagrams, Builder Work Drawings, Coordination Drawings, and As-Built documentation.

CORE COMPETENCIES

- BIM Modeling (MEP)
- BIM Development & Automation

- Cross-Department Coordination
- BIM Coordination
- Shop Drawing Production
- Plumbing & Firefighting Systems
- LOD 400 Coordinated Modeling
- LOD 500 As-Built Deliverables
- Fabrication-Level Modeling
- Clash Detection & Resolution
- Revit MEP Coordination
- Quantity Takeoff (BOQ)
- Parametric Family Creation
- Nested Families
- Shared Parameters
- Formula-Based Families
- Supplier Drawing Review
- Technical Submittals
- AutoCAD LISP Automation
- Python Scripting
- BIM Standards & IFC
- Coordination & Composite Drawings
- Workflow Automation & Custom Tool Development

TECHNICAL SKILLS

Software & Tools:

- AutoCAD (2D & 3D) + LISP / VLX Development
- Revit MEP — Modeling, Shop Drawings, Parametric Family Creation (Nested Families, Shared Parameters, Formula-Based Families)
- Python — Custom Scripting & In-House Revit Automation Tool Development
- AI Tool Integration — Connected with Revit & Navisworks Workflows
- Navisworks — Clash Detection & Coordination
- Autodesk Construction Cloud (ACC) — Project Collaboration & Document Management
- BCF Workflow — Issue Tracking & Model-Based Communication
- NWC / NWD Coordination — Model Aggregation & Clash Review
- Microsoft Excel (Advanced) — BOQ, Quantity Takeoff & Data Management

Engineering Deliverables:

- MEP Systems Layout & Design Support (Plumbing & Firefighting)
- LOD 400 BIM Coordination Models | LOD 500 As-Built Documentation
- Coordination & Composite Drawings (MEP vs Arch vs Structure)
- Supplier Drawing Review | Technical Submittals | Fabrication-Level Modeling
- BOQ & Quantity Takeoff | Riser Diagrams & Builder Work Drawings
- As-Built Drawings Preparation | Drawing Review & Quality Control
- IFC Export & BIM Standards Coordination
- Workflow Automation & Custom Tool Development

PERSONAL PROJECTS / PROFESSIONAL INITIATIVES

BIMZ Platform & BimzTools | Founder & Developer

Interactive BIM-focused personal platform showcasing BimzTools — custom Python and Revit automation scripts — alongside AutoCAD LISP tools and engineering resources for AutoCAD, Revit, and BIM professionals.

- Developed and launched the BIMZ platform presenting BimzTools, AutoCAD LISP tools, Revit resources, and workflow enhancement content — visit the link below to try the tools and view the scripts directly.
- Built the platform as a personal technical brand focused on productivity and automation, supporting engineers, draftsmen, and BIM users with practical tools and learning content.

PROJECT EXPERIENCE

Selected projects delivered across residential, commercial, hospitality, and infrastructure sectors:

- **Emaar New Zayed (Node 01 & 10)** — BIM Modeling & Shop Drawings
- **Badya (Towers & Villas)** — Shop Drawings & Coordination
- **Sodic Developments** — MEP Coordination
- **Naya West** — Design & BOQ
- **Owest Villas** — Shop Drawings
- **Al-Zamel Villas** — Design & BOQ
- **Summer Town** — Design & BOQ
- **Four Seasons Infrastructure (500,000+ m²)** — Shop Drawings & BOQ
- **El Kharg Infrastructure** — Shop Drawings
- **Oman Port (Buildings 24 & 37)** — Design & BOQ
- **Qortoba Mall** — Design & BOQ
- **VOCO Hotel** — Shop Drawings
- **Four Seasons Luxor** — Shop Drawings
- **Zahrat Al Riyadh Tower** — BIM Modeling
- **Al Yasmine Tower** — Shop Drawings
- **Alpha Tower** — Design & BOQ
- **Makadi Heights** — Shop Drawings
- **Eldawadmi Station** — Design & BOQ
- **King Salman Park** — Shop Drawings & BIM Coordination
- **Al Diriyah** — Shop Drawings & BIM Coordination
- **Four Seasons Aswan** — Shop Drawings
- **Villa Al-Hatim** — Design
- **Tanjib** — Design
- **Magna** — Design
- **Abha** — Design
- **Tabuk** — Design
- **Villa Al-Murtadi** — Design
- **Najd** — Design
- **Al-Anqari Villa** — Design
- **Ibtihaj** — Design

CERTIFICATIONS

Prompt Engineering Certification – One Million Prompters Initiative — *January 2025*

Dubai Future Foundation – Dubai Centre for Artificial Intelligence

- Government-accredited AI initiative focused on Prompt Engineering principles and effective interaction with AI language models, in alignment with the Dubai Universal Blueprint for Artificial Intelligence

Autodesk Revit MEP Professional (Revit 2024) — *September 2025*

- Autodesk Authorized Training Center – CAD Masters Training & Solutions | Duration: 25–32 Hours
- Includes Revit Family Creation & Parametric Modeling

Professional Development Diploma – Digital, AI & Design Tools — *January 2024 – April 2026*

M3aarf Education Platform | 8 Courses | 87 Total Hours

- Structured multi-course track covering: AI-powered presentations (PowerPoint & Google Slides); Logo & Branding Design; AutoCAD 2D/3D Drafting; Microsoft Word document design; AI-powered Arabic/English article writing; ChatGPT for productivity & content creation; AI-powered web design (UI/UX & smart features); and AI image/video generation & design.

LANGUAGES

- **Arabic:** Native
- **English:** Professional Working Proficiency

EDUCATION

Bachelor of Commerce – Business Management

Pharaohs Academy, Egypt
